OPTIMUM TRANSMISSION OF INFORMATION BY A

Trans. of *Radiotekhnika i Elektronika (USSR) 1959,
v. 4, no. 12, p. 1951-1956.

DESCRIPTORS: *Information theory, Data transmission
systems

The case is considered, in which, instead of a full
specification of the characteristics of the telecommuni-
cation channel, only some limitation of these param-
eters is known. An expression is established for such
a case, for the traffic-handling capacity of the tele-
communications channel where there is feedback and
where there is not. Examples are analysed. (Author)
